DETAILED ACTION

Rejection Maintined

1. Claims 18-21 rejected under 35 USC 102e) as being anticipated by Johnson'397 or '423 for reasons pf record mentioned in the last Office Action.

Response to Arguments

2. Applicant's arguments filed March 17, 2005 have been fully considered but they are not persuasive.

Applicant argues that James Johnson of the two cited references is the same Johnson who is an inventor of the present application and therefore the Johnson references are not available under 35 USC 102(e). This is not deemed to be convincing because the inventive entity of the applied references and that of the instant application are different, and hence, the references are available under 35 USC 102(e).

Thus, in the absence of any evidence to the contrary, it remains the examiner's position that the instant claimed invention is anticipated by the prior art of record discussed above.

3. The following are new grounds of rejections.

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the

Art Unit: 1772

unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 18-21 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of U.S. Patent No. 6,110,586. Although the conflicting claims are not identical, they are not patentably distinct from each other because both the instant application and the Patent'586 are directed to a reclosable bag with a fastener tape having the same structure. However, Patent'586 is directed to a fastener tape to be mounted in an opening of a reclosable bag. Therefore, it would have been obvious to one having ordinary skill in the art to modify Patent'586 by providing the tape as a fastener with the reclosable bag.

Allowable Subject Matter

6. The prior art uncovered so far fails to teach the reclosable bag as claimed and comprising a body having an opening and a fastener mounted in the opening and having the claimed structure.
